

HealthBridge Hospital Records™

HealthBridge Hospital Records is a secure online home for your inpatient hospital health information. It is designed to help you be a more active partner in your healthcare.

From any device with Internet access, you can view your medical information on this special, password-protected website.

When you sign up for HealthBridge Hospital Records, you will be able to:

- View and share your personal health record related to your hospital stays,
- Have electronic access to an updated list of medications, diagnoses, allergies, lab test results, patient history and other healthcare information related to your inpatient hospital visit,
- Access your hospital discharge instructions for better after-discharge care, and
- Manage family members' health records once you are authorized (18+).

It's easy to sign up

HealthBridge Hospital Records is available to patients of Parrish Medical Center (PMC). And it's free.

Here are the few simple steps to sign up while you are at the hospital.

1. Present photo identification and your personal email address at the PMC Health Information Management office.
2. We'll send you an email with a link to the website, parrishmed.com/hospitalrecords.
3. Select the link to go to the Portal and enter a permanent username and password.
4. Log in to view, download and send your information.

FAQs

What is the HealthBridge Hospital Records program?

The North Brevard County Hospital District/Parrish Medical Center (PMC) HealthBridge Hospital Records program or "Patient Portal" is a website that allows electronic communication between you and your providers at PMC. This patient portal is intended to save you time and ease communications between you and PMC. It does not allow for any type of diagnosis or medical advice, and should never be used in an emergency situation. You may contact PMC via telephone at any time by calling 321-268-6413.

How is my personal and medical information kept confidential?

HealthBridge Hospital Records uses a secure, encrypted connection that meets the highest industry standards. All health data is stored on a secure server and managed with the protection of your information in mind. Only you — and those you authorize — will be able to see or gain access to the information in your account. We will not share, sell or lease your personal information with any outside party not affiliated with our organization.

Will new features be added to the HealthBridge Hospital Records website?

We will be adding helpful new features regularly, so check the website often to find out about any recent updates.

How can I ensure the security of my medical information?

The following guidelines should be followed to maintain security of your medical information:

- Do not allow anyone to have access to use your username and password.
- Do not store messages on your employer-provided computer.
- Never use the website for emergency needs.
- Advise PMC of any changes in your primary contact email address.

How can I update my primary email address?

Advise us of any changes in your primary contact email address by contacting PMC through HealthBridge Hospital Records, send an email message to healthinformation@parrishmed.com with a subject line of "HealthBridge Hospital Records Support" or call Parrish Health Information Management at 321-268-6413.
